HELP US CELEBRATE YOUTH!

During the month of April help us celebrate National Credit Union Youth Month. Teach children how to save for their goals and they'll have one of the most difficult aspects of finance under their belt by the time they're teens--- being consistent savers. Saving nourishes dreams, strengthens self-discipline and protects the future. Teach your kids to put income aside today for tomorrow's goals. Help them grow strong and healthy with a credit union savings account. The credit union is ideally positioned to respond because we believe in the power of education. We're here to help you launch the youth in your life toward financial independence. So Mom and Dad or Grandma and Grandpa bring the kids in and sign the kids up with a Youth account and you will receive a \$10 deposit into your share account and they will receive a \$5 deposit to open their account.

EMV CARDS

Both our debit and credit cards will be renewed with EMV cards starting in the 2nd and 3rd quarters this year at the time of the card renewal date. If you want either one of your cards renewed with the EMV card before the renewal date, call the office and let us know. EMV stands for Europay, MasterCard, and Visa. Your new chip-enhanced card contains an embedded microchip. This chip holds information that is encrypted, making it extremely difficult for the card to be copied or counterfeited. Rather than swiping your card, you will insert your chip card into a chip-enabled terminal to complete a transaction. In addition to the embedded microchip, your new card still has a magnetic stripe on the back and you will be able to make purchases by swiping your card at merchants who have not yet switched to chip-enabled terminals. Your new card comes with advanced security due to the chip technology that makes it difficult for a fraudster to counterfeit your card. Use your chip card at the exact same merchants you

do now, by inserting the card into terminals that are chip-enabled or swiping your card at merchant location that have not yet switched to chip-enabled terminals. You can also continue to use your card as you did before for online and telephone payments.
